Good interpersonal, communication, teamwork, management skills and professional work ethics. Always up for challenges and new experiences to expand my knowledge, understanding and skills. Curious learner who can efficiently manage work and has ability to bear responsibilities while meeting given deadlines. Coding enthusiast looking for opportunities to grow and further refine my skillsets.

EDUCATION

- **Bachelor of Technology, Cloud Computing & Automation (2022 – 2026):**
Vellore Institute of Technology, Bhopal (Ongoing)
- **AISSE (2020 – 2022), AISSE (2010 – 2020):**
Kendriya Vidyalaya no. 1, Salt Lake, Kolkata

PROJECTS & EXPERIENCES

- **MULTIMEDIA GENERATION PLATFORM(Genius)–** (2023)
 - a. **Project Description:** Genius is a cutting-edge SaaS AI platform that empowers businesses with powerful Artificial Intelligence capabilities. Genius offers functionalities like Image Generation, Video Generation, Audio Generation & Code Generation.
 - b. **Tools used:** seamless integration of Next.js 13, React, Tailwind CSS, Prisma, and Stripe, Genius offers unparalleled flexibility and efficiency for AI-driven applications.
 - c. **Team Project:** 5 Members.
 - d. **Role:** Played the role in assists with research, gathering insight and evaluating AI tools and technologies to enhance the functionality of a multimedia generation platform, leveraging frameworks and integrations like Next.js 13, React, Tailwind CSS, Prisma, and Stripe to deliver a robust, user-centric SaaS solution.

- **AQUA CLOUD INNOVATORS PROJECT (Hardware Project)–** (2023)
 - a. **Project Description:** Ideation for Innovative Technology to Harvest Water from Humid Air using Nanotechnology. Collaborated with environmental scientists to analyse the ecological impact of the water-harvesting technology; findings supported potential implementation in island regions facing critical freshwater shortages.
 - b. **Ideation:** Studied the natural adaptations of fog-collecting organisms, such as the Namib Desert beetle in harvesting water harvesting from fog using biomimetics.
 - c. **Tools used:** Blender, Tinkercad and FDM 3D printing.
 - d. **Team Project:** 6 Members.
 - e. **Role:** Contributed as a 3D model designer for the filter and assisted in collecting valuable research insights.

ACHIEVEMENTS

- Smart India Hackathon 2023 – Grand Finalist- Team Aqua Cloud Innovators (PSID- SIH1328)
- Silver Medal in Aadhav – AdVITya 2023 Football Tournament (Defender)
- Gold Medal in Aarambh 2022 – Football Tournament (Defender)

CERTIFICATIONS

- Cloud Computing (IBM)
- Python Essentials
- Fundamentals of AI and ML
- MATLAB and Simulink (MathWorks)
- Journey to Cloud- Envisioning Your Solution (IBM)
- Getting Started with Enterprise Data Science (IBM).

SKILLS & OTHERS

- **Skills** – Python, Java, MySQL, UI/UX, Tinkercad
- Core member of English Literary Club (ELA) - Technical department
